# EDCO<sup>®</sup> POWER TROWELS

**STAR PERFORMERS**

**TWO MODELS**

**JUST "SECONDS" TO  
CHANGE BLADES!**

**EDCO BLADES "SNAP"  
ON AND OFF!**

EDCO POWER TROWELS—Built To Last—all steel, welded construction—accurately balanced for smooth finishing and ease of operation.

EDCO "Injector" blades are used on all trowels—change, reverse, or remove blades without the use of tools. No screws, bolts, or nuts to take out and lose. Blades can be changed in seconds.

Heavy duty gasoline engines power the unit. The EDCO designed gear box requires no attention or lubrication for 2500 hours.

Four blades for extra smooth finishing, tilt control located on handle allows the operator to adjust pitch without any great effort. Blades can be individually adjusted to compensate for wear or mishandling.

A "quick kill" switch is standard on all EDCO POWER TROWELS.

The handle is adjustable, can be raised or lowered to suit operator need. It can also be raised vertically for storage or to act as a "tie on" balance point for lifting the unit by crane.

All EDCO POWER TROWELS are shipped with one set of blades. Units are completely assembled, simply service the engine and your EDCO POWER TROWEL is ready for use.

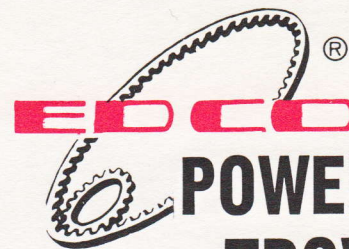

## SPECIFICATIONS:

MODEL T-36 • 3.5 HP cast iron Gasoline engine • Quick Change Edco "Injector" Blades • 4-Blades • Adjustable Handle • "Kill Switch" • Self cleaning clutch • All welded steel plate construction • Heavy duty gear case • Easy tilt control • Individual blade adjustment • Shipped completely assembled • Weight 145 lbs. • Overall width 37 inches • Width of blade sweep 35½ inches.

Price—\$400 FOB Factory

MODEL T-48 • 7 HP gasoline engine • Quick Change Edco Injector Blades • 4 blades • Adjustable handle • Dual belt drive • All welded steel plate construction • Heavy duty gear case • Easy tilt control • Individual blade adjustment • Shipped completely assembled • Weight 210 lbs. • Overall width 48 inches • Width of blade sweep 47 inches.

## BLADES to fit ALL POPULAR POWER TROWELS

- **QUICK CHANGE BLADES**

Thru the use of EDCO adapters, your present unit can be converted to accept the 'INJECTOR' blades. These adapters are installed only once. To attach blades — merely insert blade on adapter, push and the blades "Snap" into place. Removal or changing blades is equally as fast. No screws or bolts to worry about, no parts to lose.

- **LONG LIFE — SATISFACTORY SERVICE**

Made from the finest abrasive-resistant steels available. EDCO blades will fit most popular power troweling machines.

- **TIME AND LABOR SAVINGS**

Time saved in changing from float to finish or combination type blades will more than offset the cost of the adapters.

Whatever the make or model of your present power trowel — it can be adapted to use EDCO 'INJECTOR' trowel blades. Ask your equipment distributor to demonstrate a set — today.

## 'INJECTOR' TROWEL BLADES

The new EDCO Injector Blades are designed to do away with that old time consuming problem of changing trowel blades on your power trowel . . . No screws, bolts or nuts from which to chip concrete. Once the EDCO adapter is installed on your troweling machine the job of changing blades becomes a "Snap."

**STOP** wasting TIME  
changing trowel blades

**EDCO BLADES**  
"SNAP" on and off

Thru the use of EDCO Adapters it is now possible to stock only three sizes of Blades and fit virtually all makes and models of troweling machines in your inventory. How is this possible? EDCO has designed Adapters that will attach to your troweling machine in the same manner as your previous blades. These adapters are designed to take the quick change EDCO Injector Trowel Blades . . . A glance at the chart will show you that the same blade is used on several make units. While the mounting method is different on these trowels, the EDCO Adapter will fit each machine and the most amazing thing is that one EDCO Blade size will fit machines of the same diameter regardless of make or model. Savings on inventory alone will more than offset the small cost of adapters needed.

EDCO blades are made from the finest steels available.  
EDCO blades are competitively priced.
